Symposium on Novel and re-emerging respiratory viral diseases, held at the Institute of Molecular and Cell Biology, Singapore, 23–25 April 2007

Editors: Gregory Bock (Organizer) and Jamie Goode

This meeting was based on a proposal made by Yee-Joo Tan and Wanjin Hong

- Robert G. Webster** Chair's introduction 1
- Larry J. Anderson and Suxiang Tong** Identification and characterization of novel viruses 4
Discussion 12
- Edward C. Holmes** The evolution of viral emergence 17
Discussion 26
- Derek J. Smith, Jan C. de Jong, Alan S. Lapedes, Terry C. Jones, Colin A. Russell, Theo M. Bestebroer, Guus F. Rimmelzwaan, Albert D. M. E. Osterhaus and Ron A. M. Fouchier** Antigenic cartography of human and swine influenza A (H3N2) viruses 32
Discussion 37
- Gabriele Neumann and Yoshihiro Kawaoka** Influenza pandemics and control 45
Discussion 53
- J. J. Skehel, S. Wharton, L. Calder and D. Stevens** On the activation of membrane fusion by influenza haemagglutinin 56
Discussion 62
- Yee Sin Leo** Singapore SARS experience and preparation for future outbreak 69
Discussion 74

- Yee-Joo Tan** SARS lessons for a young virology laboratory in Singapore 79
Discussion 85
- Ih-Jen Su** How the SARS experience has helped preparations for future outbreaks: the Taiwan experience, with emphasis on the successful control of institutional outbreak of influenza in 2003/2004 using a stockpile of antivirals 89
Discussion 95
- General discussion I** 99
- Yuelong Shu, Yu Lan, Leying Wen, Ye Zhang, Jie Dong, Xincheng Zhao, Dayan Wang, Lihong Yao, Xiyan Li, Wei Wang, Xiuping Wang, Qi Wang, Shumin Duan, Jingjing Huang, Lei Yang, Hongjie Yu, Yuanji Guo, Weizhong Yang, Xiyan Xu, Nancy J. Cox, Xiaoping Dong, Yu Wang and Dexin Li** Genetic and antigenic characterization of avian influenza A (H5N1) viruses isolated from humans in Mainland China 103
Discussion 108
- J. S. M. Peiris and Y. Guan** Emerging infectious diseases and the animal–human interface 113
Discussion 122
- Erich Hoffmann, Hui-Ling Yen, Rachelle Salomon, Neziha Yilmaz and Robert G. Webster** Transmission and pathogenicity of H5N1 influenza viruses 128
Discussion 137
- John M. Wood** Development of vaccine for a future influenza pandemic 141
Discussion 146
- Final discussion** 152
- Index of contributors 157
- Subject index 159
